

Sensormatic Source Tagging and Recirculation Program

Trusted Protection, Proven Process, Simple Savings

Optimize efficiency and savings by pairing the benefits of source tagging with hard tag recirculation

Retail Ready

Tag merchandise at the manufacturer so it can go straight to selling floor from receiving dock upon arrival

Labor Savings

Allocate associates to customer-focused activities rather than applying tags

Sales Lift

Protect products openly, making them readily available for shoppers

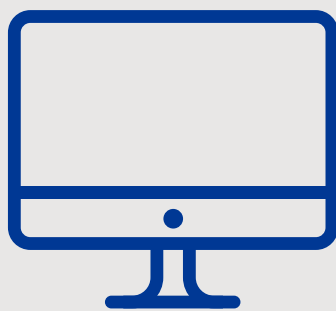

Reduce Shrink

Protect more items throughout the store

Step 1

Manufacturer:
Order Hard Tags Online

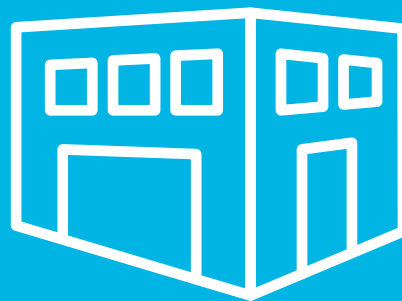

24/7 Global Order Processing Center
Customized online portal for each retailer's program

Step 2

Distributor:
Send Tags to Manufacturer

8 strategically located global distribution centers

Here's How Recirculation Works

Step 4

Retailer:
Ship Tags for Recirculation

Tyco Retail Solutions buys back the tags, saving the retailer money on future hard tag purchases

Tags are quality-checked for performance, cleaned, and recertified under ISO certification

Step 3

Manufacturer:
Tag Items and Ship to Retailer

Retailers benefit from hard tag protection with available AM/RFID dual technology – a transition to gain RFID capabilities

Over **7B** tags recirculated to date

35,000+ pounds of plastic saved

7 years consecutive growth
